In this month of graduates, it may seem like a far cry back to the football season of 1920, but who will forget the days we trudged out to the field for practice. It was a great season and one of which Mechanics Institute may well be proud. It started none too auspiciously and it was not until the middle of the season that a winning streak was developed. When this habit of winning was established it was a mighty positive force and the team that represented M. I. at the close of the season would have been worthy of a much larger institution.

The season opened with a 56 to 0 defeat by the Syracuse Freshmen. We defeated Starkey 20 to 0. The following week Conesus College defeated us 54 to 0. St. John's Military Academy defeated us 7 to 0. The R. S. O. played us and the score was 0 to 0.

Arthur Blanchett has been elected Captain of the 1921 team and we feel certain that he will be a capable leader of the best team M. I. has ever had.
